OF A FLYING LOCOMOTION.

What a last party can do in a flying locomotion. The party of the day have studied the subject of flying locomotion. The speed of the party of the day greatly exceed that of any terrestrial locomotion.

From this follows an entire economic change in the direction of rendering immense tracts of comparatively worthless territory at distances of 20 to 40 miles from cities much more available.

There would also result the reorganization of city property in large measure to business and storage purposes.

This would to a large extent accomplish what Henry George sighs for, but would do it by means which do not involve any wrong to the land owner by the wage earner.

With flying navies capable of carrying unladen at night large quantities of explosives to the center of a city war would become a destructive force. It would be so much suppressed by arbitration as a matter of common sense and self preservation.

Arbitration once established, an international police system controlling nations as we do individuals, and enforcing the decrees of boards of arbitration, would be enormously assisted by this power of rapid and if necessary destructive patrolling.

Immense areas of country, now well nigh impenetrable, would be opened to usefulness. Large sources of wealth would thus be added to the civilized world and would result in the amelioration of the condition of the savages of such regions as central Africa.

We should have to give up selfish legislation and restriction upon the commerce of other nations, and be obliged to perform to "stand on a broader heritage than that of a nation or of zone."

Children Cry for Pitcher's Vaseline.

The Chinese legation has always been an object of curiosity in Washington, and the mysterious goings on in the famous old Stewart castle, which the Celestials used to inhabit, were a never failing source of wonder and speculation. Now that the legation has a magnificent triple house for its home on the heights the interest in the inhabitants is still further increased. The Chinese minister is new to Washington, and his ignorance of some of the ways was the cause of a very peculiar complication the other day.

The monthly bills of the Washington Gas Light company are printed on paper of a peculiarly dirty yellow tint, which happens to be the exact hue of the Chinese emblems of mourning. The long strips are laid regularly at the doors of all houses in the city and at the Chinese legation among the rest. The other day one was laid for the first time at the new home of the legation, which is filled with new Chinese servants. The gas bill strip was left in the vestibule, and being carried to the new minister profoundly affected him. It was evidently intended, he thought, as a notification of somebody's death, and as it was left at the legation door it doubtless indicated the bereavement of some family high in official life.

The minister at once gave orders to close the house. The usual instruments of mourning were brought out, the shutters were drawn, and passersby for the remainder of the evening were regaled with a combination of curious noises such as the Chinese only know how to utter when engaged in bewailing the dead, and the minister retired with the satisfaction of knowing that he had performed a diplomatic courtesy. —Cor. THURSDAY, MARCH 8, 1894.

IN ACCORD WITH THE SENATORS.

A Comstock paper which advocated the election of one of the Wall Street candidates for President in 1892 went into retirement soon after the election, for the reason, it was alleged, that its goldbug owners refused to support it. Last January it came out of its hole silver galvanized and announced that it would advocate the interests of the State, regardless of politics. The thin silver plating with which it disguised itself soon wore off and exposed its true colors. The ruse deceived only the unsophisticated, as it was suspected from the moment it came out of exclusion that its reappearance was due to Wall Street influences. Now it advocates the success of the party which follows the leadership of Sherman in the Senate and of Reed in the House, and which endorses in Congress the financial policy of the Administration. It thinks it amusing that the newspapers of Nevada, which are advocating the cause of silver regardless of the Wall Street party, could quote the following remarks of Senator Stewart, who asks:

Is it possible that there is still a man in Nevada who does not know that both the Republican and Democratic parties are in favor of a single gold standard, and that any man who in any form advocates the gold combination?

Or of Senator Jones, who declares that:

Any man who advocates the success of either of those old parties thereby justifies, confirms and endorses the demonetization of silver, and their protests are simply shams, pretenses and frauds, emanating from such only as place party above country and the federal pie counter above general prosperity.

The resurrected organ, commenting on those remarks, says:

Granted that they used the above language. Who made it possible for them to occupy the position they now hold? Are those men going back on their life-long principles, are they now going to turn upon those who have always been their bosom friends and denounce them as enemies to the best interests of Nevada? Certainly not.

To this the *Silver State* replies in the following pointed manner:

The people of the State of Nevada made it possible for both the Senators to hold their present positions. Two-thirds of them to-day are in hearty accord with the Senators in the patriotic stand taken by them. Neither Senator Stewart nor Senator Jones are going back on any life-long principles; they are rather reaffirming those principles, but in a new line and in such a manner as to be effective and at the same time retain their manhood and self-respect, which no one can do who favors the free coinage of silver and remain in the Republican party.

PENSION AND SILVER DOLLARS.

J. W. Anderson, secretary of the G. A. R. Executive and Memorial Association of Colorado, wrote to Congressman Pence of that State asking him to use his influence to have all pension claims which have been pending five years or more, made special when there is no question as to the identity of the applicant. He desired all such adjudicated at the rate of eight dollars per month and paid in silver dollars.

Congressman Pence replied that he had written to the Commissioner of Pensions and would see him personally on the subject of making the claims special. So far getting the pensions paid in silver, Mr. Pence has no hope of success. He says it is impossible to get the Government to use silver for anything. The officials are dead set against it and in that they seem to have the active support of Mr. Reed and his crowd in the House, and of Mr. Sherman and his followers in the Senate.

The payment of \$150,000,000 a year in silver for pensions would utilize all the bullion now stored in the Treasury. That would keep the mints running steadily, coining silver dollars. It would convert the bullion, now as useless as so much rubbish, into money, and get it in circulation among the people without inconvenience to anybody. An old soldier would not complain if his stipend of eight, ten or twenty dollars a month was paid quarterly in standard dollars, and no easier or more effective method could be devised for getting silver into circulation.

All the Grand Army men in the country, who believe in free coinage, should in the interests of farmers, miners and the public generally, petition Congress to pass an act to pay pensions in standard dollars. Several posts in Montana and Washington are reported as having already done so, but it requires general action to make the request effective.

GOLD IN A TWENTY DOLLAR PIECE.

In reply to an inquiry an official at the U. S. Mint at Carson says:

"A double eagle, or \$20-gold piece, standard in both weight and fineness, contains exactly \$20 in gold.

"A standard piece weighs 1.075 oz., and is .900 fine. By multiplying the weight by the fineness and dividing by .900, which is the U. S. fineness of all coins, gives you the standard weight of gold contained in the coin.

"For example—Forty-three oz. of standard gold is worth \$300, therefore multiplying the number of standard oz. in the piece, which is 1.075, by 300 and dividing by 43, gives you the value of the piece, \$20.

"Melting a \$20-piece will not diminish its value, except the Government charges imposed, if offered for sale."

DOINGS OF CONGRESS.

The Senate Considering the Bland Bill.

THE NEW YORK ELECTION.

What Corbett Says About His Coming Fight With Jackson.

CONGRESSIONAL PROCEEDINGS.

The Bland Bill in the Senate—The House at Work on the Pension Bill.

WASHINGTON, March 7.—In the Senate Sherman moved that the Bland seigniorage bill be referred to the Finance Committee. This precipitated a vigorous discussion in which Sherman advocated his motion, and Hill and Cockran opposed it.

The House bill appropriating \$45,000 for the recovery of the armament and the wreck of the Kearsarge was passed. Morgan presented a resolution calling on the President to inform the Senate whether Great Britain had occupied Blue Fields or any other part of Nicaragua, the size of the force landed and the claim of authority under which the landing was made. Morgan said he wanted to know whether the Clayton-Bulwer treaty of 1850 was being violated; he added that he understood the Kearsarge was on her way to Blue Fields when wrecked. The resolution was agreed to.

The House bill authorizing General O. O. Howard to accept from France the decoration of the Commander of the Legion of Honor was passed.

Harris of Tennessee then opened the silver fight by moving a second reading of the Bland seigniorage bill and gave notice that when the bill was read the second time he would move to take it up for consideration, as the reason he objected yesterday was to bridge over until he could consult his Democratic colleagues. Voorhes, in the course of his speech later, said he had hopes and belief that the tariff bill would be reported to the full committee within a few hours. It would remain in the committee at least a week.

Michelson and Vest made personal explanations denying the statement in the *New York World* this morning charging them with stock jobbing while delaying the tariff bill.

The Senate then entered on the consideration of the seigniorage bill and Sherman's motion to refer it, spoken of in the first paragraph, was defeated by a vote of 6 to 50. Affirmative votes Davis, Gallager, Morrill, Palmer, Sherman and Vilas.

There were some dilatory tactics after the Seigniorage bill was taken up, but they were not carried far. Morrill Sherman and Allison spoke in opposition, then, after a short executive session the Senate adjourned.

In the House the joint resolution for the appointment of a commissioner to the Antwerp Exposition was passed.

The House then went into a Committee of the Whole on the pension appropriation bill.

CHAMPION CORBETT.

He Thinks his Fight With Jackson Will Not Come Off in June.

BALTIMORE, March 7.—Champion Corbett, now playing in this city, said he did not think his fight with Jackson would take place in June because no business-like offer had yet been received from any club. "And," he continued, "none will be accepted until both of us are assured we will have thorough protection during the contest and afterwards. I desire no repetition of the Florida trouble, and if possible will not have it."

"Another thing, I want three months to train and suppose Jackson would want the same time. I am going to Europe in April. If a purse for a finish fight can be secured in London, I will be perfectly willing to fight there. I feel so sure of victory and am so anxious to meet Jackson that if a \$30,000 purse and proper protection could be secured now I would surrender my trip abroad and all other business engagements to bring about the match with all possible haste."

NEW YORK ELECTIONS.

General Republican Gains Throughout the State.

NEW YORK, March 7.—Election returns from various counties in the State show decided gains. In Geneva every one of the Republican candidates were elected; in Rochester the Republican candidate for Mayor was elected by a majority of probably 3,000; in Little Falls not a single Democrat was elected. Every town in Wayne county shows Republican gains. In Gloversville the Board of Aldermen will be entirely Republican. Returns from Rockland, Washington, Essex, Clinton and Greene counties all show that the Republicans have either held their own or made large gains. Lansingburg elected the entire Republican ticket by over 1,200 majority. Saratoga county went Republican by increased majorities.

At Albion the Democrats elected all their candidates with the exception of a Police Justice.

A Murderer Confesses.

COLUMBUS, O., March 7.—Charles Morris, a colored twelve-year-term robber from Green county, who attempted to commit suicide, confessed that in 1885 he killed Mr. and Mrs. Charles Doughtett near Xenia, afterwards burning their home to hide the murder. Morris was arrested at the time on suspicion, but was not convicted. Morris was afterward sent to prison for robbery. He has been so haunted and worried over his crime that he had to confess it to gain relief to his tortured mind. Last night he made a third attempt to kill himself by beating his head against a bench.

Telegraphic Notes.

J. M. Archer was murdered near North Baltimore, Ohio, while on his way home and robbed of \$3,000.

Governor Foster of Louisiana has appointed Representative Blanchard United States Senator from that State to succeed White, appointed Justice of the Supreme Court.

A tin box with a partly burned fuse attached was found on the window sill of a London police station. The police think it a serious matter, but the rest of London consider it a joke.

Gladstone stayed out late night before last dining with a friend, and got chilled on his way home. Yesterday his physicians pronounced his case serious. He suffers most from hoarseness.

The Portuguese fired on a party of English marines who were protecting workmen on a telegraph line on the Zambesi, in Africa. The British returned the fire, and both parties have asked for reinforcements.

War has broken out between Catholics and Protestants at Memphis, Tennessee. The Protestant Pastors' Association has published a card defending the American Protective Association in attacking Catholics, whom they accuse of conspiring to control all the city offices.

Grand Chiefs Arthur and Sargent, representing the employees of the Great Northern Railway, called on General Manager Case to confer about the new schedule of wages. Case upheld the reduction and explained why it was made. The men are dissatisfied about the matter.

Congressman Hatch, at a meeting of the House Committee on Agriculture, informed representatives of Boards of Trade that he did not seek in the Anti-Option bill to prevent legitimate trading in futures, but only sought to suppress the bucket-shops and dealings in "puts" and "calls."

The President sent the latest correspondence from Minister Willis on Hawaiian affairs to Congress yesterday. It contained nothing new except that the Provisional Government is preparing to enlarge the Executive Council and make it representative and Chinese on the islands are protesting against the change.

AN IMPORTANT ENTERPRISE.

A company has been organized to utilize the waters of Humboldt Lake for irrigation and mining purposes. The object is not to drain the lake, as heretofore reported, but to tap the lake and develop a water power, which can be used for reducing ores, of which there are abundance in the vicinity, and reclaim lands below the lake by irrigating them.

It has been frequently stated that Humboldt Lake was at the wrong end of the river, but it is now proposed to show that it is not. There are rich lands capable, when irrigated, of producing all the cereals and vegetables the lake as well as above it and along the Humboldt river. There are also gold, silver, copper, nickel, cobalt and iron mines in the immediate vicinity of the lake, and sufficient water power can be developed to run a large number of stamps.

Men of means have engaged in the enterprise and will carry out the project of tapping the lake by tunnel and utilizing the waters, which now evaporate, for industrial purposes.

INFLUENZA,

Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is Ayer's Cherry Pectoral.

"Last Spring, I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid and so complete. It is truly a wonderful medicine."—W. H. WILLIAMS, Crook City, S. D.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is blown on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures Diarrhoea, regulates the Stomach and Bowels, cures Wind Colic, softens the gums, reduces inflammation and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for children teething is pleasant to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. ALMOST CONVERTED.

But Concludes to Remain With the Silver Party.

EDITOR JOURNAL:—I note in your issue of to-day that your correspondent, "Farmer," calls attention to some of the absurdities of our world-be great men in their speeches at the Republican barbeque or love-feast at the Opera House a week ago last Saturday night. Of course, I refer to the time and place where the Federal Brigade from Carson fell on the necks of our own faithful "Cuckoos" and mingled their tears in common flood. But no matter about the weeping, for 'tis said "Jesus wept" on a certain occasion, then why not they?

I have already written you that I was present on the occasion referred to and noted some other things that sounded somewhat remarkable. For instance, it appeared to be a general understanding among the Ten Commandments who spoke to impress upon the ungodly the immense benefits all our people would derive in case the Republican party should be again given control of the Government. Why, the good things promised were enough to convert almost anyone. Yea, verily, the glories of Solomon were tame when compared to the effulgent glories to be seen in the resurrection of the grand old party to power. "Carry the news to Mary." For the time being I was converted; yes, sir, for the speakers, ever and anon, reverted to the early history of the party and its patriotic management of the Government during the rebellion. Frequent mention was made of Abraham Lincoln, W. H. Seward, Salmon P. Chase, Charles Sumner and other illustrious American statesmen who once manned the glorious ship of state as leaders of the Republican party. In my wrought-up feelings my mind reverted to the grand administration of Uncle Abraham Lincoln; that through his instrumentality, under the providence of God the shackles were stricken from millions of bondmen, that his oration at Gettysburg marks the fairest page in American history, and that he died for a nation. Then floated in my mind the patriotic achievements of the silent soldier who won battles that the flag might survive and that Republican government might live. Next came the recollections of Sheridan's Ride and Farquhar lashed to the mast in the bay of Mobile, and the splendor of Sherman's march from Atlanta to the sea—all grand, noble and patriotic deeds of the grand old party that was born to carry on a government in the interest of all the people of our common country.

But the meeting came to an end. Bartine had the last say, and the whoop-up closed with three cheers and a tiger. The ten commandments left the stage after a gush one upon another. They all felt good; so did I. I started home happy. In passing the Salvation Army barracks I hollered "Hallelujah." Soon got home and embraced my wife still feeling good. As the embrace was something new, I was asked, "What is up now?" Told her what I had heard at the meeting. Repeated many of the brilliant sentences of the immaculate ten. She asked me what I meant by the ten. I said, "Why, the ten commandments, of course, to wit: Governor Colcord, Poudjide, Fulton, Torreyson, Summerfield, Coffin, Patterson, Crockett, Turritin and Bartine." She then wanted to know if I was going back to the old crowd. I said, "Yes, I have been thinking some of doing so." "Well," was her retort, "if you want to go, why go, but at the same time arrange for a new boarding house." This was a corker, especially during the present inclement weather. I tried to compromise on the basis of half silver and half Republican, but with no satisfactory results. Then I again told her of the grand old party, when she limbered up and raked me for and aft, as it were. I have no shorthand report of what she did say, but out of the harangue do recall something like the following:

"Yes, the Republican party was a grand old party sure enough. The deeds of its leaders thirty years ago will always be revered by the civilized world. But the party is a has-been and therefore a back number. The party under Lincoln and Sumner wrought for the welfare of every American citizen. The party of to-day, headed by Congressman Tom Reed and John Sherman, is but the mouthpiece of aggregated capital. Thaddeus Stevens and Ben Wade spoke and worked for the masses. Benjamin Harrison and Whitelaw Reid favor the classes. The New York Tribune of 1860 was the Republican Bible then and advocated the best interests of the whole people. The Tribune of to-day is still the Bible of the Republican party, but is owned and run in the interest of millionaires and bond holders. The editor of thirty years ago was a friend of the toiling millions. The present editor worships Wall Street. Horace Greeley was an American citizen; Whitelaw Reid is an English snob."

So, on second thought, I guess I better stay with the People's party. More anon. H. H. B.

LONGFELLOW'S BIRTHDAY.

How it Was Celebrated in Paradise.

The celebration of Longfellow's birthday by the pupils and teachers of the Paradise Private School, will be remembered by the people of the valley and surrounding country who had assembled for the purpose of honoring the name of America's greatest poet and literary student. Long before the raising of the curtain the large school room was packed to overflowing with big and little, old and young, jammed almost into a solid mass, all eager for the exercises to begin and several times during the entertainment the doors had to be thrown open and the windows raised to admit of a free circulation of fresh air. When the curtain was raised there stood upwards of sixty of the brightest and most intelligent boys and girls ranging from six to seventeen years of age, that it ever was our good fortune to behold.

The exercises opened with a song of welcome by the whole school, the sweet strains of whose voices were almost as inspiring as the heavenly spheres themselves. The program of exercises comprised, "Song of Welcome," by the school, "Essay on Longfellow," "Dialogues," "Recitation from Longfellow's poems," "Tableaux," "Doll Drill," "Fan Drill," Court scene, a farce, and "Good night," by the school. In the absence of Miss Lizzie Schwartz, who was taken suddenly ill, Mrs. Hancock, wife of Professor W. C. Hancock, principal of the school, kindly volunteered her services as pianist, and the sweet strains from the instrument mingled with the melodious voices of the children was a treat for the people of Paradise. Where all acquitted themselves with so much credit it would scarcely be fair to make special mention of any one, but the rendition of the "droll drill," by the seven little girls with their dolls, and the recitation of the "September Gale," by little Chesley Austin, had to appear the second time, and were as rapturously applauded as ever were Mrs. Julia Dean Hayne or Henry Irving, and is sufficient excuse for mentioning the little tots.

NEVADA'S INDUSTRIES.

Our Land Agent Fighting for Borax and Soda.

Ex-Congressman Thomas J. Clunie, of California, and C. D. VanDuzer of this city are making a strong fight for the borax and soda industries of California and Nevada at the National Capital. Mr. VanDuzer has made a special study of borax and soda and his argument before the Ways and Means Committee of the House last November, was pronounced one of the best expositions of the subject yet made. Mr. Clunie, in co-operation with whom Mr. VanDuzer is working, pronounced it a very able argument, and Wm. D. English and Senator White of California, are using portions of his statistics before the Senate Committee at the present time. It appears that our Land Attorney is not confining his efforts to one line alone but is making himself generally useful where ever the interests of the State are concerned.

PARADISE VALLEY.

A Good Country for Farmers and Stockmen.

H. J. Pratt in a letter to the 'Drovers' Journal says of Paradise Valley:

"Our climate, bunch grass and fine hay make Nevada the best stock State west of the Missouri river. Two-year-old steers weigh from 1,200 to 1,300 pounds, three-year-olds from 1,300 to 1,600 pounds, and prized in San Francisco for their fine flavor and tenderness."

We raise from 35 to 40 bushels of wheat, 30 to 50 bushels of barley, 50 to 75 bushels of oats, 300 to 500 bushels of potatoes and from 1½ to 3 tons of wild hay and 3 to 5 tons of alfalfa to the acre. Wheat sells at \$1.10, barley \$1.10, oats \$1.50, potatoes \$1 per hundred, hay \$5 to \$8 per ton.

In one month the shipments of live stock aggregated 2,601 head of cattle and 16,594 sheep.

Wages are from \$30 to \$35 per month, and good farm hands can get steady employment if they wish to work.

At Greeley, Colorado, J. A. Rankin last week sold forty April pigs averaging 220 pounds apiece. He received \$9.90 for each pig. These animals were fed on alfalfa until October and then fattened on wheat. Mr. Rankin asserts that he realized one dollar a hundred on his wheat.

A goldbug declares in our evening contemporary that "Mr. Wren is but one of a baker's dozen of other statesmen who would burn every human being on earth to the stake who did not agree with the way they think they are thinking." What terrible bad men Mr. Wren and the baker's dozen statesmen must be, almost as bad in fact as the English in the above quoted sentence.

A. W. Lindsay has placed on exhibition at the Palace saloon, Winnemucca, a specimen of rock which F. M. Fellows proposes to send to the Midwinter Fair. It is susceptible to a fine polish and there is a whole mountain of it about 15 miles from the Alder Creek ranch.

French Lessons.

Madame Bonneville Leek, at the Golden Eagle Hotel, teacher of the French language, would be pleased to enlarge her class and respectfully solicits patronage in Reno. Mrs. Leek is a qualified and highly successful teacher of the French language, which is her native tongue, and the experience she has acquired in the many years she has exercised her profession enables her to offer her services to the public of Reno as a thoroughly competent instructor.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Palpitation of the Heart and a General Break Down

The Good Effect of Hood's was Marked and Permanent.

"C. I. Hood & Co., Lowell, Mass.: 'Gentlemen,—I was taken down sick last December, and became very weak with nervous trouble, palpitation of the heart, and a general break down. I had a good physician, but lingered along, getting no better. I could sit up only about half a day, until the 18th of March, when I concluded I would give Hood's Sarsaparilla a trial. When I had used it a short time, I could get up and go all about the house all day. I have never enjoyed perfect health, but am now taking my fifth bottle of Hood's Sarsaparilla, and know it has helped me wonderfully. I have used Hood's Pills, and think them excellent.' MRS. A. E. MORSELESS CARRIAGES.

A Paris Journal Offers Cash Prizes For a
Novel Competition.
The plucky little Petit Journal of Paris
—little in size, only for its circulation it
is great—which sent bicycles into fash-
ion through its prize matches, now offers
a large temptation to ingenious skill. In
the year 1894, on June 1, there will be a
competition for the best carriages to
wheel without a horse—for the economi-
cal accommodation of paterfamilias and
his family. Steam, electricity, gas, pe-
troleum, anything, in fact, giving power
and speed with safety, will be tolerated
—and all nations will be welcomed. The
jury will be composed of the staff of The
Journal, with a suitable number of en-
gineers thrown in.

Each carriage must hold four persons.
It is intended as an offset to the egotism
of the cycle. The carriage must be of
easy management and not costly on the
road. The trial trips will be made on
good roads from Paris to Mantes, Paris
to Dreux, to Bayvais and so on. Fifty
kilometers in three hours is the speed
required. Anything more will be ad-
mired, but not paid for. No luxury of
fitting up will influence the decision.
Rapidity, security, economy and safety
are the watchwords.

Ten francs is the cost of admittance,
and this fund goes in any case to the
Caisse du Secours of The Petit Journal.
This is merely done to prevent useless
presentation. The prizes are 5,000 francs,
3,000 francs, 1,500 francs, 1,000 francs
and 500 francs. The list of competitors
will be closed on the 30th of April next.

KENNEDY SAW A COMET.

Manifestation Fulfilled the Prophecy of a
Sick Woman.

William H. Kennedy, residing at 465
Westford street, this city, says he saw a
comet last Sunday night.

Walking on Middlesex street near
Barnum, his attention was attracted to a
luminous object in the sky to the north-
ward. The sky was clear, and the moon
was shining in the southeast. When he
first saw the comet, as he supposes, it
appeared to be the size of a full moon, as
bright as an electric light and surrounded
by a halo.

The object moved slowly across the
sky to the south, diminishing in bright-
ness, until, attaining a reddish hue and
the size of an orange, it disappeared. He
thinks he kept the object in sight half an
hour, and called the attention of a friend
to it, who also witnessed its disappear-
ance.

Mr. Kennedy considers the manifesta-
tion more remarkable as apparently ful-
filling the prophecy of a sick woman, by
whose bedside he was watching the pre-
vious night. About 3 o'clock a. m. the
patient, with closed eyes, drew a diagram
of a comet which she predicted would
soon appear in the north.

Mr. Kennedy said he was thinking of
this prediction when, looking up into the
sky, he saw it apparently fulfilled.
A meteorite is reported to have fallen in
New Bedford that night, striking within
10 feet of a woman. It may have been
Mr. Kennedy's "comet."—Lowell Special

EUROPEAN SOVEREIGNS.

Many Past Seventy, Yet Still Ruling With
the Power of Youth.

The Almanach de Gotha for 1894 has
buried in its numerous finely printed
pages some interesting facts as to the
ages of European sovereigns. The old-
est of all is the pope, who is in his
eighty-fourth year. Next comes the
Grand Duke of little Luxembourg, who is
76. The king of Denmark and the
Grand Duke of Saxe-Weimar are 75;
Queen Victoria and the Grand Duke of
Mecklenburg-Strelitz, 74. There are six
other sovereigns who are older than 70;
11 who are between 60 and 70, and five
who are between 50 and 60. Eleven are
between 40 and 50, two between 30 and
40, and two more between 20 and 30.
The youngest three sovereigns are King
Alexander of Servia, 17; Queen Wilhel-
mina of the Netherlands, 13, and Alfonso
XIII of Spain, 7.

Queen Victoria has had the longest
reign—54 years. Emperor Franz Josef
has reigned 45 years; the Grand Duke of
Baden, 41 years; the Grand Duke of Old-
enburg, of Saxe-Weimar-Eisenach and
of Saxe-Altenburg, 40 years each. Four-
teen of the sovereigns of Europe have
reigned fewer than 10 years. During
1893 three new sovereigns ascended the
throne. The Prince George of
Schaumburg-Lippe, Prince Frederick of
Waldeck and Duke Alfred of Coburg,
better known as the Duke of Edinburgh.

Elaine Goodale's Indian Husband.
Interest is again centering in Dr. East-
man, the young Sioux Indian who was
before the public a few years ago. It
will be remembered that Eastman gradu-
ated from Dartmouth, and soon after
surprised the public by marrying Elaine
Goodale, the Berkshire poetess. The pair,
soon after their marriage, located in the
west. Then Dr. Eastman obtained an
appointment as physician at the Pine
Ridge Agency, South Dakota. All ran
smoothly for the time being. Then dis-
satisfaction arose, and the government
authorities concluded that it would be
best to transfer Dr. Eastman to some
other agency. To this he entered a re-
monstrance and finally tendered his res-
ignation. To St. Paul Dr. Eastman fled
himself and began practicing medicine,
hanging out his shingle of "Owiyessa,
the Sioux." Hard times have gone
against the Indian, for he is again be-
fore the government asking for reappoin-
tment as physician to one of the
agencies.—Cincinnati Commercial Gas-
ette.

Aged Woman Walks Over 500 Miles.
Mrs. Anna Peterson of Denver, 60
years of age, walked into Pueblo at 2
o'clock Saturday morning, having come
on foot from the Cherokee spring, 630
miles, with the exception of a trifle over
100 miles, which she rode on a train. She
went to the spring at the opening, but with
starvation staring her in the face she sat
out for Denver and averaged more than
20 miles every day she walked.—Pueblo

BALD HEADS!

What is the condition of yours? Is your hair dry,
harsh, brittle? Does it split at the ends? Has it a
lifeless appearance? Does it fall out when combed or
brushed? Is it full of dandruff? Does your scalp itch?
Is it dry or in a heated condition? If these are some of
your symptoms be warned in time or you will become bald.

Skookum Root Hair Grower

is what you need. Its production is not an accident, but the result of scientific
research. Knowledge of the diseases of the hair and scalp led to the discov-
ery of how to treat them. "Skookum" contains neither mineral nor salt. It
is a dye, but a delightfully cooling and refreshing tonic. By stimulating
the follicles, it stops falling hair, cures dandruff and grows hair on bald
heads. Keep the scalp clean, healthy, and free from irritating eruptions, by
the use of Skookum Root Hair Grower. It destroys parasitic insects, which feed on
the hair, and prevent their growth. If your druggist cannot supply you send direct to us, and we will forward
paid, on receipt of price. Grower, \$1.00 per bottle; 5 for \$5.00. Soap, 50c.
per jar; 5 for \$2.50.

Ancient, but Lively.
Friends inclined to regard Father
Craw of the Hess road as an old man
probably do not know what they are
talking about. We have proof in point.
In addition to performing ministerial
and other good Methodist work enough
to weigh down an ordinary man, Father
Craw recently and just for a flier and
a little exercise himself tore down 150
rods of rail fence, dug postholes the
whole way and put up a brand new
fence. We suppose he is over 70 years
of age, but if any one wants a good
workman—whether it is preaching or
doing hard manual labor—we recom-
mend Father Craw.—Lockport Journal.

Testing a Razor.

The economical young man took his
razor to one of the best barbers in town
to be honed. Returning to get it, he
found it ready for him.

"I'll warrant that edge," said the
barber.
"It does look pretty sharp," said the
man, and he began to feel the edge with
his thumb.

"But I won't warrant it if you do
that," declared the barber. "It's the
worst thing you could possibly do. You
might better cut your nails with it than
run your finger across the edge once or
shave with it for a month. There's noth-
ing like knowing a thing or two," the
barber added.—Buffalo Express.

Treatment of Cholera.

Dr. Norman Kerr, the London physi-
cian, was asked, "What treatment
would you say is a wise one in case of
choleraic seizure?" He answered: "If
I had cholera, after a first preliminary
treatment for the diarrhea, I would
rather have no physic. I would take lots
of hot and cold water—ad libitum, in
fact. And I would keep myself in sur-
roundings of warmth. I would rather
have that treatment than all the medi-
cines in the world."—London Ex-

Brucecats Study the Bible.

Ever since an eloquent book canvasser
paid a visit to the Manyunk police sta-
tion the unusual sight may be daily wit-
nessed there of a dozen or more blue-
coats pouring over handsomely bound
volumes of the Bible which the agent
sold to them. Their earnest study of
the book in order to become familiar with
its contents is due, it is said, to a new
rule that at every roll call each officer
is required to quote a passage from mem-
ory. Lieutenant Allison acts as spirit-
ual director. Every man giving a cor-
rect quotation is to be presented with a
blue ticket as a reward of merit.—Phil-

The Most Gorgeous Treasures of Arabia.

What a splendid picture it brought
before your mind! You read the glow-
ing descriptions of these secret treas-
ures which the geni of the ring spread
before Aladdin's gaze. You perused
the story in your Arabian Nights when
a boy, and your imagination pictured
brilliantly for you everything the
words suggested.

That was when you were a boy. To-
day, possibly, you are unable to do it.
Shall we tell you the reason why?
Most probably because your liver is
sluggish, and a consequence you suffer
from a sick headache, dizziness, con-
stipation. Do you want to cure all
these troubles permanently, make your
liver active, your imagination lively,
and in general enjoy things as you did
when a boy? All you have to do is to
use Dr. Pierce's Peppets, purely veg-
etable, perfectly harmless, the smallest
and easiest to take, and they are the
cheapest because they are guaranteed
to give satisfaction, or your money is
returned. What more do you want?
